Who We Are

- A small, woman-owned, GSA-certified MAS Contractor reselling an array of office products and equipment to the Federal Government.
- A worldwide leader in the direct supply of premium imaging cartridges, electronics, office products and equipment, offering quality products at competitive pricing.
- One of the fastest growing government-contracted companies, providing quality-tested products certified to specific standards for optimum performance and TAA compliance.

What We Can Do For You

- We can get you anything you need and in a timely manner.
- We offer multiple forms of payment and are willing to work with you to get you what you want when you need it.
- Sales Reps are former military, so we understand your requests and empathize with the demands.
